

six easy steps

alfresco

set-up instructions

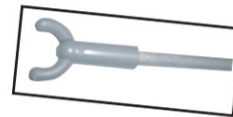

1 Set the base where you will display your outdoor banner stand, and fill it with water.

4

Insert the two top arms like rabbit ears. (2 sets of arms are included; Use the shorter set with graphics less than 25.5" width.)

2 Connect the 2-piece center post.

5 Attach the top of each graphic by slipping the grommets onto the hooks of each arm.

3 Insert into the base.

6

Insert 1 bottom leg into the hub of the center pole and slip the graphic onto the hook.

Insert the other leg into the hub and guide it to hook onto the remaining grommet of the graphic. (Repeat for 2nd graphic.)

Adjust the center pole by pinching the clip and raising, or lowering if necessary.
